THE QUOTATION OF SOME OF THE FUNCTIONS THAT ARE OFFERED BY THE SCHOOL ACADEMIC MANAGEMENT SYSTEM

NB. *It must be noted that our company designs customized information system. This implies that this very system can still be changed to offer functions/services as ordered by the client*
- *The system can easily be networked and accessed using wires, **WIFI** or Internet.*
- *The system also has an in-built Help menu.*

In it's current state this system with a lot of ease can be used to do the following:
This one has two versions:
1. One that has fixed number of exams done in a term
2. Another one where the number of exams done is fixed i.e Can be two(BOT/MOT and EOT) or Three(BOT,MOT and EOT)
3. It also has Smart Pop-ups for viewing or editing different things. E.G Financial

System security
- The Administrator is provided with the authority to assign users User accounts (password and privileges).
- You can also view User logs and find out who accessed the System and at what time.
- The Administrator is also provided with the authority to control marks entry and editing of any class, any subject to prevent Marks forgery while on the hand, for any user to enter, edit or delete any subject mark would be required to have that subjectcode given to them by the administrator.
